Professional Summary

Passionate and innovative iOS Developer dedicated to crafting cutting-edge applications with a strong emphasis on simplicity and user experience. With extensive expertise in Swift development across visionOS, iOS, watchOS, iPadOS, and macOS, I am driven by a desire to reinvent user interfaces and deliver unique, engaging digital experiences. My work blends technical proficiency with a deep commitment to design, always aiming to push the boundaries of what's possible in app development. I thrive on solving complex challenges, ensuring that every app I develop is not only functional but also intuitive and delightful to use.

Professional Experience

iOS Engineer

Endalia | May 2022 - Present

- Maintain and implement new features and modules for the iOS App, focusing on performance optimization and user experience.
- Utilize a range of technologies including UIKit, SwiftUI, Combine, and RxSwift within an MVVM architecture to enhance application functionality.
- Collaborate with cross-functional teams to ensure seamless integration of new features and to address any technical challenges.
- Lead the refactoring of legacy codebases to improve maintainability and adherence to modern coding standards.

Freelance iOS Developer

2021 - Present

- Developed and launched Invoflow, a comprehensive iOS app now available on the App Store, aimed at simplifying invoice management for freelancers and small businesses.
- Worked closely with clients to design and implement custom app solutions, ensuring alignment with their business objectives.
- Currently creating an innovative iOS app for padel players, integrating advanced technologies such as CoreML and CoreMotion to recognize player movements and enhance game experiences. The app allows users to create and share matches with friends, track and store health metrics using Apple HealthKit, and earn achievements based on their gameplay and health data.

Freelance Web Developer

2020 - Present

- Designed and developed over 30 websites for diverse clients using technologies such as Next.js, Strapi, and Gatsby.

- Offered end-to-end solutions from initial concept through to deployment, including the design of UI/UX components.
- Provided additional services in photo and video editing using Photoshop and Final Cut Pro.

Android and Web Developer

Pharmamodelling SL | March 2018 - August 2018

- Completed a successful internship, followed by a full-time position for the summer.
- Developed an internal Android app using Java, alongside a Python-based website using Django.
- Created various internal tools in C# with .NET, enhancing the company's operational efficiency.

Education

Higher Degree in Multiplatform Application Development

Cuatrovientos Integrated Center, Pamplona | 2016 - 2018

- Developed an Android app for Pamplona City Hall, which was successfully launched on the Play Store.

Degree in Computer Engineering

Public University of Navarre | 2018 - 2020

- Completed two years of study before transitioning to a professional career due to emerging freelance opportunities.

Skills

- **Programming Languages & Technologies**: Swift, SwiftUI, UIKit, CoreData, CloudKit, Combine, RxSwift, CoreML, Firebase, CoreMotion, HealthKit, Java, Python, Django, C#, .NET, HTML, CSS, JavaScript
- **Tools & Frameworks**: MVVM, MVC, Swift Package Manager, CocoaPods, Firebase, AWS Amplify, REST API, JSON, Git
- **Design & Multimedia**: Final Cut Pro, Photoshop
- **Operating Systems & Platforms**: Linux, Bash, Windows Server, Active Directory, macOS, iOS Development, Android Development

Certifications and Awards

- **First Prize** - Computer Olympics of Navarra | 2017
- **Linux Essentials Certification** | 2017

Languages

- **Spanish**: Native
- **English**: C1 Level Proficiency
